The Espace Plateau has a 295 maximum capacity when cleared of furniture or equipment. Please note that capacity in the Espace Plateau is subject to change based on the specific layout and furniture configuration of your event. The Phi Centre reserves the right to amend posted capacity to reflect constraints of a specific setup and ensure a safe and pleasant experience for our guests.

### **Inter-connectivity**

The Phi Centre's infrastructure offers limitless possibilities. Inter-connectivity patch plates are available throughout the building and link every space together via the central data hub. These patch plates have provisions for digital video and audio feeds, allowing for a full-duplex experience from one space to another, a live digital recording of a performance or a web-cast feed of your event. To learn more about what the Centre's integration can do for you, speak with the Studio Director.

### **Electricity**

There are 2 tie-in points equipped with a CamLock-type disconnect in the basement, accessible within the Espace Plateau via a cable tray. Please speak with the Technical Director to coordinate your electrical needs.

### **Lighting**

The Espace plateau is outfitted with a permanent fixed grill made of steel 1.9" OD, rated to a linear load of 37 kg/meter for a uniformly distributed load. The Espace plateau has various ceiling-mounted and wall-mounted DMX patch plates for easy installation. The Phi Centre encourages the use of LED fixtures but allows use of traditional lighting equipment. There is no permanently installed or assigned lighting equipment in the Espace Plateau. Please speak with the Technical Director if you intend to bring your own lighting equipment.

Please refer to the document titled "Rental equipment" for available options.

## **Restrictions**

The use of any and all type of fasteners (screws, nails, double-sided tape, etc.) is prohibited throughout the building. Since the Centre is classified as historic, the use of proscribed fasteners will result in reparation and restoration charges. The use of pyrotechnic effects, naked flames, confetti and sticker distribution are strictly forbidden at all times throughout the Phi Centre.

### **Loading/Unloading**

Deliveries should be directed to the Evans Court alley on St-Paul street, right before the corner of St-Pierre. Cube trucks up to 16' can access the alley only. Any longer vehicles will need to unload from Saint-Paul street. All truck movements must be coordinated with the Technical Director. No vehicles may remain in the alley without its driver present at all times, as neighbouring residents and businesses rely on access to the alleyway. Vehicles must be parked off premises once unloaded.

### **Storage**

There are no storage or staging areas at the Phi Centre for empty and dead cases. Storage must be achieved within the venue space or arranged off-premises. Please discuss this constraint with the Technical Director to avoid last minute fees and inconveniences. All deliveries and pick-ups must take place on the day of the event.

### **Hospitality**

A green room and two dressing rooms are available on the 3rd floor, accessible either by the stairs or the elevator. These rooms are not exclusive to any venue and must be reserved ahead of time if needed. Please speak with your assigned event coordinator to ensure availability. Fees may apply.
