Introduction

Space D - or "Grand Salon" is an open-plan space on the fourth floor of the Phi Centre. Its large windows open up on the historical surroundings of Old Montreal and can be blacked out on request, making the space ideal for standing cocktails to seated video projections. Steel hanging pipes travel through the space and allow rigging positions to match the most demanding needs. Its integrated 15-speaker PA system can be configured for all types of uses.

Dimensions

Please use the latest version of the "Technical Plan" available on our website for the most up-to-date information.

Capacity

Space D has a capacity of 266, inclusive of the roof Terrace (see below).

The Terrace

With an incredible view over Old Montreal and unrivalled privacy, the Terrace offers a comfortable and genuinely relaxing atmosphere. Stairs in Grand Salon lead straight up to the intimate roof of Phi Center's historical building. The Terrace capacity is 49 and must be counted in the total occupancy of the floor below (Grand Salon).

Basic configuration

Please refer to the up-to-date version of the "Room Plan" available for download on our website. Custom configurations are possible but must be organized ahead of time with your assigned event coordinator.

Inter-connectivity

The Phi Centre's infrastructure offers limitless possibilities. Inter-connectivity patch plates are available throughout the building and link every space together via the central data hub. These patch plates have provisions for digital video and audio feeds, allowing for a full-duplex experience from one space to another, a live digital recording of a performance or a web-cast feed of your event. To learn more about what the Centre's integration can do for you, please speak with the Studio Director.

Electricity

There are no electrical tie-ins available in Space D other than the built-in capacity. Please talk with the Technical Director to ensure electrical needs are addressed before your event.

Lighting

Use of LED-type lighting fixtures is mandatory in Space D. No traditional lighting fixtures can be hung on the grill. There are various ceiling-mounted and wall-mounted DMX patch plates for an easy installation. Please talk with the Technical Director if you intend to bring your own lighting equipment.

Desks:

Kramer VP-774 HDMI / VGA / HDSDI / HD-BaseT

Screen:

Motorized front projection screen DRAPER ACCESS 3,3 m x 8 m (11'6" x 6") / 16:9

Restrictions

The use of any and all type of fasteners (screws, nails, double-sided tape, etc.) is prohibited throughout the building. Since the Centre is classified as historic, the use of proscribed fasteners will result in reparation and restoration charges. The use of pyrotechnic effects, naked flames, confetti and sticker distribution are strictly forbidden at all times throughout the Phi Centre.

Loading/Unloading

Deliveries should be directed to the Evans Court alley on St-Paul street, right before the corner of St-Pierre. Cube trucks up to 16' can access the alley only. Any longer vehicles will need to unload from Saint-Paul street. All truck movements must be coordinated with the Technical Director. No vehicles may remain in the alley without its driver present at all times, as neighbouring residents and businesses rely on access to the alleyway. Vehicles must be parked off premises once unloaded.

Storage

There are no storage or staging areas at the Phi Centre for empty and dead cases. Storage must be achieved within the venue space or arranged off-premises. Please discuss this constraint with the Technical Director to avoid last minute fees and inconveniences. All deliveries and pick-ups must take place on the day of the event.

Hospitality

A green room and two dressing rooms are available on the 3rd floor, accessible either by the stairs or the elevator. These rooms are not exclusive to any venue and must be reserved ahead of time if needed. Please speak with your assigned event coordinator to ensure availability. Fees may apply.
